

RiverGlade Capital Announces New Partnership with Dynamic Infusion Therapy

Plano, TX (February 9, 2021) – RiverGlade Capital (“RiverGlade”), a healthcare services-focused private equity firm, has formed a new partnership with Dynamic Infusion Therapy, LLC (“DIT” or the “Company”), a full-service, on-demand outsourced provider of vascular access insertion services with a proven clinical model that lowers costs for its customers and leads to better patient outcomes. Terms of the transaction were not disclosed.

Based in Plano, TX, DIT is the largest outsourced provider of vascular access insertions, serving more than 700 health systems and hospitals, long term acute care facilities, nursing homes and other healthcare providers. The Company’s full-service offering includes the upfront procurement of supplies needed for the insertions to eventual completion of the procedure by one of DIT’s specially trained, employed nurses. DIT has 24/7 coverage, quick turn-around times and has consistently achieved a 99% success rate with its insertions. DIT’s outsourced service delivers an overall better value to its customers than is possible in-house.

Maintaining an in-house vascular access team and the supplies needed for vascular access is costly and many patients are forced to wait long periods of time for the procedure.

RiverGlade partnered with DIT's founders and management team as part of the transaction.
